

2023 MYSTERY QUILT

STEP 2

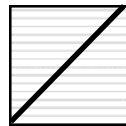

I will put the small size instructions in parentheses to try to eliminate confusion. Please note in the illustrations that I have put a directional shading on the light squares—this is to show fabric placement if your fabric has a one-way design.

For this step we will use:

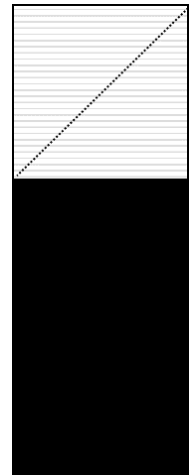

All 100 (small size – 24) B LIGHT squares
All 100 (small size – 24) A DARK rectangles.

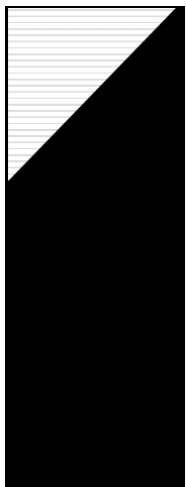

On the wrong side, mark a diagonal line on the B LIGHT squares.

Place the square over the rectangle and sew together on the diagonal from upper right to lower left.

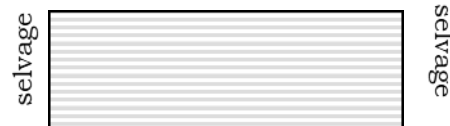

It is extremely important that all of these are done the same way.

You can trim away the excess after you are positive you sewed them all correctly, and then **press to the rectangle**. See – triangles – sneaky – huh?!

Special note:

If your B LIGHT fabric has a directional pattern, place it on the rectangle so that the pattern goes in the same direction as the pictures.
