

2023 MYSTERY QUILT

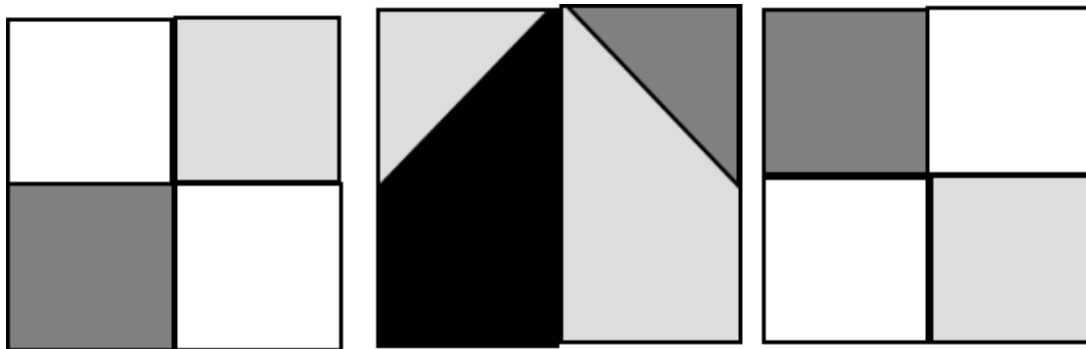

STEP 7

For this step we will use:

The other $\frac{1}{2}$ of the pieces you made in Step 5

50 for the large size, 12 for the small size.

All the 4-patches you made in Step 4.

This is going to be the trickiest step. Sew the 4-patches to either side of the Step 5 piece. The trick here is that you have to match the triangle fabric to the 4-patch fabric as shown. **Press towards the center patch.**

You will have 50 sets for the large size, 12 sets for the small size.
